WALL-MOUNT WIRE SHELVING

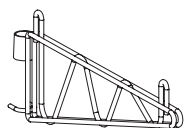

TOOLS NEEDED

Cordless Drill
(3/16" Drill Bit)Step Ladder
(Optional)

Tape Measure

Phillips
Screwdriver

PARTS

Shelf Bracket x 4

Shelf Support x 4

Anchor x 12

Mounting Bracket x 4

Center Mounting Bracket x 2

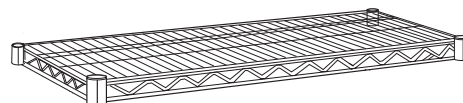

Screw x 12

Bolt x 4

Post x 2

Shelf x 2

INSTRUCTIONS

1. Mounting brackets should be spaced 1 1/2" shorter than the width of the shelf. Do this by measuring from the center of one mounting bracket to the center of the other. Drill top mounting brackets to the wall using (2) anchors and (2) screws for each mounting bracket. (See Figure 1)
2. Align center mounting brackets about 17 inches directly below the top mounting bracket, so it will be at the midpoint of the posts. Mount center mounting brackets using (2) anchors and (2) screws for each center mounting bracket. (See Figure 2)

Figure 1

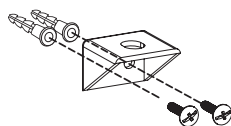

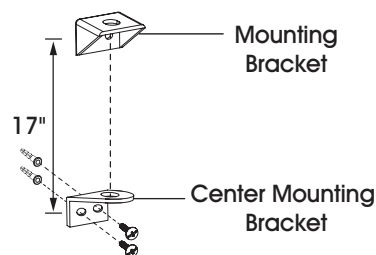

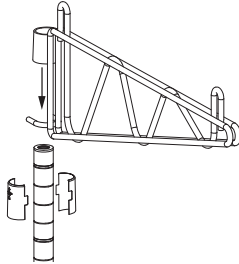

Figure 2

INSTRUCTIONS CONTINUED

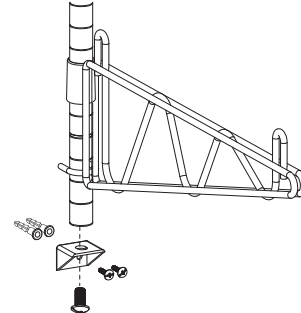

- Slide top shelf brackets onto posts. Fasten shelf supports at the desired height of top shelf on both posts. Push shelf brackets down upon the shelf supports. (See Figure 3)

Figure 3

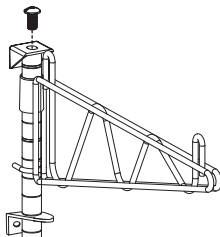

- Drill bottom mounting brackets to the wall using (2) anchors and (2) screws for each mounting bracket. Use bolts to fasten posts to bottom mounting bracket. (See Figure 6)

Figure 6

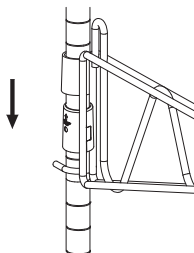

- Slide the bottom of posts through the center mounting bracket. Then, fasten top of posts to top mounting brackets using bolts. (See Figure 4)

Figure 4

- Slide bottom shelf brackets onto posts. Then fasten shelf supports at the desired height of the bottom shelf. Push shelf brackets down upon the shelf supports. (See Figure 5)

Figure 5

- Place shelves on top of shelf brackets. (See Figure 7)

Figure 7
