Pour le français, consulter la page 3.

PARTS

INSTALLATION

CHANGING DUAL-PURPOSE SWITCH SLIDES

- Slides have the words "TOGGLE" and "ROCKER" molded on opposite sides.

- When "TOGGLE" appears through the cover, the lockout device is set for a toggle-style switch. (See Figure 1)

Figure 1

- When "ROCKER" appears through the cover, the lockout device is set for a rocker or paddle-style switch. (See Figure 2)

Figure 2

- To change between "TOGGLE" and "ROCKER," apply firm pressure to remove Dual-Purpose Switch Slide from base. Flip the slide over and snap back into place. Repeat on second slide. (See Figure 3)

Figure 3

INSTALLATION ON SWITCH

- Loosen or remove screws. Install wall switch lockout. Tighten screws securely. (See Figures 4-5)

Figure 4

Toggle

Figure 5

Rocker

- Move switch to either off or on position. Close cover. Apply safety padlock. (See Figure 6)

Figure 6

**BLOQUEADOR
PARA INTERRUPTOR
UNIVERSAL DE PARED**800-295-5510
uline.mx**PARTES****INSTALACIÓN****CAMBIAR DESLIZADORES DE INTERRUPTOR DE DOBLE USO**

- Los deslizadores tienen las palabras "TOGGLE" y "ROCKER" moldeadas en lados opuestos.

1. Cuando se puede leer la palabra "TOGGLE" en la cubierta, el dispositivo del bloqueador está configurado para un interruptor de conmutación. (Vea Diagrama 1)

Diagrama 1

2. Cuando se puede leer la palabra "ROCKER" en la cubierta, el dispositivo del bloqueador está configurado para un interruptor de paleta. (Vea Diagrama 2)

Diagrama 2

3. Para alternar entre "TOGGLE" y "ROCKER," aplique una presión firme para quitar el deslizador de interruptor de uso dual de la base. Voltee el deslizador y vuelva a colocarlo en su lugar. Repita la operación con el segundo deslizador. (Vea Diagrama 3)

Diagrama 3

INSTALACIÓN EN UN INTERRUPTOR

1. Afloje o quite los tornillos. Instale el bloqueador para interruptor de pared. Apriete bien los tornillos. (Vea Diagramas 4 y 5)

Diagrama 4

Diagrama 5

2. Mueva el interruptor a la posición de encendido o apagado. Cierre la cubierta. Coloque el candado de seguridad. (Vea Diagrama 6)

Diagrama 6

PIÈCES

INSTALLATION

CHANGEMENT DES GLISSIÈRES À DOUBLE USAGE

- Les mots « TOGGLE » et « ROCKER » sont moulés sur les côtés opposés des glissières.
- Lorsque « TOGGLE » est visible à travers le couvercle, le dispositif de verrouillage est prêt à recevoir un interrupteur à bascule. (Voir Figure 1)
 - Lorsque « ROCKER » est visible à travers le couvercle, le dispositif de verrouillage est prêt à recevoir un interrupteur berceau. (Voir Figure 2)
 - Pour basculer entre « TOGGLE » et « ROCKER », appuyez fermement pour retirer la glissière à double usage de la base. Retournez la glissière et remettez-la en place. Répétez la procédure pour l'autre glissière. (Voir Figure 3)

Figure 1

Figure 2

Figure 3

INSTALLATION SUR L'INTERRUPTEUR

- Desserrez ou retirez les vis. Installez le verrou d'interrupteur mural. Serrez fermement les vis. (Voir Figures 4 et 5)

Figure 4

Figure 5

- Placez l'interrupteur en position « off » ou « on ». Fermez le couvercle. Posez le cadenas de sécurité. (Voir Figure 6)
