

ULINE S-21731, S-21732 PLASTIC LED LIGHT BULBS

1-800-295-5510
uline.com

INSTALLATION

RETROFIT PROCEDURE WITH INSTANT START ELECTRONIC BALLAST

1. Turn off the power before installation.
2. Open the diffuser from the light fixture and remove the fluorescent tubes. Please dispose of these items properly, as they contain mercury. (See Figure 1)

3. Install the LED tubes into the lighting fixture and close the diffuser. (See Figure 2)

4. Turn on the power.

NOTE: May not be compatible with all ballasts. See Ballast Compatibility on pages 2 and 3 for more information.

RETROFIT PROCEDURE WITHOUT BALLAST

1. Turn off the power before installation.
2. Open the diffuser from the light fixture and remove the fluorescent tubes. Dispose of tubes properly, as they contain mercury.
3. Cut the wires as indicated. (See Figure 3)

4. Make the new wire connect to branch circuit. (See Figure 4)

5. Place orange retrofit label on fixture to designate compatibility with ballast bypass LED tubes only.
6. Replace the cover over the wiring channel, install the LED tubes and close the diffuser.
7. Turn on the power.

INSTALACIÓN

PROCEDIMIENTO DE ADAPTACIÓN A BALASTRO DE ENCENDIDO INSTANTÁNEO

1. Corte la electricidad antes de la instalación.
2. Retire el difusor de la base de la lámpara y saque los tubos fluorescentes. Deseche estos artículos de manera adecuada, ya que contienen mercurio. (Vea Diagrama 1)

3. Instale los tubos LED en la base de la lámpara y cierre el difusor. (Vea Diagrama 2)

4. Restablezca la electricidad.

NOTA: Pueden no ser compatibles con todos los balastos. Vea Compatibilidad de Balastos en las páginas 5 y 6 para más información.

PROCEDIMIENTO DE ADAPTACIÓN SIN BALASTRO

1. Corte la electricidad antes de la instalación.
2. Retire el difusor de la base de la lámpara y saque los tubos fluorescentes. Deseche los tubos de manera adecuada, ya que contienen mercurio.
3. Corte los cables como se indica. (Vea Diagrama 3)

4. Haga que el cable nuevo se conecte al circuito derivado. (Vea Diagrama 4)

5. Coloque la etiqueta naranja de adaptación en la base para designar la compatibilidad con tubos derivados LED de balastro solamente.
6. Vuelva a colocar la cubierta sobre el canal de los cables, instale los tubos LED y cierre el difusor.
7. Restablezca la electricidad.

INSTALLATION

PROCÉDURE D'INSTALLATION AVEC UN BALLAST ÉLECTRONIQUE À ALLUMAGE INSTANTANÉ

1. Coupez l'alimentation avant l'installation.
2. Ouvrez le diffuseur du luminaire et retirez les tubes fluorescents. Veuillez jeter ces tubes de façon appropriée, car ils contiennent du mercure. (Voir Figure 1)

3. Installez les tubes DEL dans le luminaire et fermez le diffuseur. (Voir Figure 2)

4. Mettez le luminaire sous tension.

REMARQUE : Il se peut que le luminaire ne soit pas compatible avec tous les types de ballasts. Consultez la section Compatibilité des ballasts à la page 8 et 9 pour de plus amples informations.

PROCÉDURE D'INSTALLATION SANS BALLAST

1. Coupez l'alimentation avant l'installation.
2. Ouvrez le diffuseur du luminaire et retirez les tubes fluorescents. Veuillez jeter ces tubes de façon appropriée, car ils contiennent du mercure.
3. Coupez les fils comme indiqué. (Voir Figure 3)

4. Connectez le nouveau fil au circuit de branchement. (Voir Figure 4)

5. Placez l'étiquette d'installation orange sur le luminaire pour indiquer la compatibilité avec les tubes de dérivation DEL uniquement.
6. Remettez le couvercle sur le canal de câblage, installez les tubes DEL et fermez le diffuseur.
7. Mettez le luminaire sous tension.
