**EAGLE MANUFACTURING COMPANY
PERIODIC RE-TESTING
12 April 2022**

Test Report #: E-041222

Product: 55 Gallon Tapered Tapered Drum (Model # 1655MB, 1655M, 1655MBLK)

Manufacturer and Testing Facility: Eagle Manufacturing Co. 2400 Charles St. Wellsburg, WV 26070

Regulation: 49 CFR 173.3 & 178.601

Objective: To determine the compliance with proper regulations (49 CFR 178 Subpart M) for UN 1H2 container for Packaging Group I & II solid materials and 49 CFR 173.3 Salvage Drum applications.

Items Tested: One sample lot of removable top, open head plastic containers. Volumetric capacity of the container is 55 gallons. Material of construction of the container is High Molecular Weight High Density Polyethylene (HMW HDPE), extrusion blow molded.

Closure Components: 23" 16 Gauge Metal Band, 23" White Lid and 611 Gasket

TEST PERFORMED	REGULATION	Number of Samples	RESULTS
Drop	49 CFR 178.603	12	Passed
Leakproofness	49 CFR 178.604	3	Passed
Stacking	49 CFR 178.606	3	Passed
Vibration	49 CFR 178.608	3	Passed

Any modifications made to this packaging as tested voids this certificate.

UN DOT PACKAGING MARKINGS:

 1H2/X200/S/22/USA/M4990

 1H2/Y250/S/22/USA/M4990
